

USAF
Academy Flight Training Center
Local Procedures Exam
September 2022

Instructions

This exam is part of the Annual Standardization Test. Continue with the following exam using a separate answer sheet and check () Other: Local Procedures. Do not assume information not specifically provided in the questions. You will need the Academy Aero Club SOP AFI 34-117 .

1. The hours of operation at the USAF Academy Airfield are from _____.
 - A. 0730 to 1700
 - B. during daytime
 - C. official sunrise to official sunset
 - D. one hour prior to official sunrise to one hour after official sunset

2. The local area for the Aero Club is limited to the following airspace:
 - A. all area east of I-25
 - B. all area within a 50 NM radius excluding mountainous terrain
 - C. all area within a 75 NM radius excluding mountainous terrain
 - D. all area within a 75 NM radius

3. Day VFR local flights remaining within the practice areas require a minimum of _____.
 - A. same as in question 3
 - B. 2,000 ft ceiling and 3 miles visibility
 - C. 2,000 ft ceiling and 5 miles visibility
 - D. 3,000 ft ceiling and 5 miles visibility

4. For takeoff and landing the maximum reported surface wind is _____ knots.
 - A. 20
 - B. 25
 - C. 30
 - D. 35

5. Takeoffs will be suspended for C-172 180 horsepower aircraft if the density altitude reaches _____ feet MSL.
 - A. 9,000
 - B. 9,500
 - C. 10,000
 - D. 10,500

6. The PIC shall close the flight plan with the appropriate FSS or through electronic means no later than one half-hour after landing/ETA.
 - A. True
 - B. False

7. The following flights must be cleared on a USAFA Form O-435:
- A. all training flights
 - B. all Aero Club member flights (no instructor on board)
 - C. all flights
 - D. cross country flights only
8. A Federal Aviation Administration (FAA) flight plan is required for all:
- A. local area flights
 - B. outside the local area flights
 - C. outside the local area flights and local area flights with a stopover
 - D. local area flights with stopover and returning the next day
9. After landing on RWY 16L, aircraft will not turn off on RWY 8/26 unless directed by tower.
- A. true
 - B. false
10. After landing on RWY 34R aircraft will not turn off on Taxiway D unless directed by ATC and if speed permits.
- A. true
 - B. false
11. Aircraft are always refueled and serviced after each flight. Exceptions are:
- A. when surface winds exceed 35 knots
 - B. when lightning is within 5 miles of the airfield
 - C. both A and B
 - D. during uncontrolled operations on Sundays and holidays
12. Do not taxi within _____ feet of refueling operations.
- A. 25
 - B. 50
 - C. 75
 - D. 100

13. When the Academy Airfield is uncontrolled, the normal CTAF is_____.
- A. 121.80
 - B. 124.15
 - C. 121.25
 - D. 134.10
14. Normally the Academy Flight Training Center (AFTC) uses Runway 16L/34R. Under what conditions are flight ops approved on other runways at KAFF?
- A. Only 16L/34R is approved for the AFTC
 - B. 16C/34C can be used when directed by Academy Tower, or when 16L/34R is closed.
 - C. 8/26 May be used only with a full stop landing.
 - D. Both B and C are correct.
15. For non-towered operations, returning aircraft will enter the traffic pattern using the established routing through JOYAL or SLEDGE
- A. True
 - B. False
