AFSVC (Child and Youth Services) has released the 2025-2026 School Year Fees effective 12 Jan 2026. With careful consideration, the USAFA Child and Youth programs will continue to use the High Market Fee Adjustment Rates for childcare fees approved by AFSVC. The implementation of the high-market fee schedule is necessary to pay higher wages to CYP staff to compete with local labor wages and overcome the current hiring challenges for Child and Youth Programs within the Colorado Springs area. If you have any questions or concerns regarding your childcare fees; please contact the Child and Youth Services Flight Chief, Jessica Parks at jessica.parks@us.af.mil.
